

## Commission Plan 2 (Member Support-Team Member)

**Description:** This commission plan is for the Provider Partner that doesn't want to subscribe to their own personalized Provider Partner Portal but would rather work with Nutrition Factors independently to follow-up on referrals on an "as needed basis" from the company. There are no fees for the coaching portal. The Provider Partner Portal and client referrals are owned by Nutrition Factors. However, the Coach does not have the luxury of branding the Provider Partner Portal with their personal credentials and must work within the Company's pricing structure and the guidance of their mentor.

**Designed For:** Professionals and Coaches who:

- want to contract their services and expertise to Nutrition Factors members and potential members
- want to use the Nutrition Factors Wellness Platform for referred clients
- don't want to find their own clients
- are new to coaching and would benefit from mentoring

**Status:** Member Support-Team Member

**Your Cost:** Free

**Facts:**

Receive referrals from Nutrition Factors' customer support or a Team Lead. It is understood by the partner that referral leads are generated and paid for by the Company's effort to market the Nutrition Factors' products and services. Provider Partner does not pay for use of the coaching or telehealth portal. Therefore, commissions are lower than other commission plans. In addition, you the Partner can earn commissions on personal sales of memberships and services.

Nutrition Factors provides the business opportunity. The Provider Partner benefits from our marketing effort. This is a turn-key service for the Provider Partner.

- Provider Partner schedules clients on their own time and guides the client. The Company does not get involved between the Provider Partner and the client as the counseling session is confidential and the coach should be educated enough to give proper advice. The Company brokers the opportunity to an independent contractor.
- The Provider Partner guides and decides the course of action for the client.
- Use the Nutrition Factors platform, telehealth and Nutrition Factors' Gym App to Coach referred clients.
- Provider Partner cannot coach referred clients outside of the Nutrition Factors platform.

- Provider Partner does not set fees or charge client for any additional fees.
- Company reserves the right to reassign client if the client's rating of the coach is below acceptable rating.
- Company has the right to monitor the relationship between client and team lead, should a complaint occur.
- Provider Partner works under the direction of a Team Lead.
- The Partner is unable to customize the portal with their personal brand.
